EXPERIENCE

Frontend Engineer

January 2024 – Present

Synup Digital

Bengaluru, India

- Created [MailDrift](#), an embeddable email editor (React, TypeScript, dnd-kit) as a solo project, replacing a \$250/mo third-party dependency with a fully owned internal tool.
- Developed core frontend modules of Synup OS, an all-in-one agency platform serving 5,000+ marketing agencies.
- Designed and published [synup-js](#), the official Node.js SDK for Synup's v4 API — zero-dependency, TypeScript-first, with full unit and integration test coverage.

Full Stack Engineer

July 2022 – December 2023

BugBase Security

Bengaluru, India

- Built core frontend and backend modules of Pentest Copilot, an AI-powered autonomous pentesting tool that ranked #4 Product of the Day on Product Hunt.
- Architected RESTful APIs (Node.js, Express.js, MongoDB) powering the platform's internal tools and partner integrations.

Frontend Developer

August 2021 – July 2022

BookingJini Labs

Bhubaneswar, India

- Developed responsive web interfaces for a hospitality SaaS platform used by 3,900+ hotels across 120+ cities.

PROJECTS

[Spendich](#) | *Next.js 16, Supabase, Mantine, Telegram Bot API*

- Shipped a personal finance app with natural language expense entry, SMS/CSV import, budgets, real-time Telegram bot sync, and smart spending insights.
